A. Audit quality – national context	19
-------------------------------------	----

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

1. Introduction & headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Merseyside Waste Disposal Authority ('the Authority') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). The Code summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of the Authority. We draw your attention to both of these documents on the [PSAA website](#).

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the :

- Authority and group's financial statements that have been prepared by management with the oversight of those charged with governance; and
- Value for Money arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or Those Charged with Governance of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based.

Group Accounts

The Authority is required to prepare group financial statements that consolidate the financial information of Mersey Waste Holding Limited.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Valuation of land and buildings
- Management override of controls
- Impact of Covid-19 pandemic

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £1.384m (PY £1.227m) for the group and £1.383m (PY £1.226m) for the Authority, which equates to 1.7% of your prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £69,100 (PY £61,000).

ISA 320 also requires auditor to determine lower materiality levels where there are "particular classes of transactions, account balances or disclosures for which misstatements of lesser amounts than materiality for the financial statements as a whole could reasonably be expected to influence the economic decisions of users". We have identified the following disclosure where a lower materiality level is appropriate; Disclosure of senior manager salaries and allowances in the remuneration report. Due to public interest in these disclosures and the statutory requirement for them to be made, we have set a materiality level of £2% individual senior officer remuneration disclosures (PY £20,000 total senior officer remuneration).

1. Introduction & headlines

Value for Money arrangements	<p>Our risk assessment regarding your arrangements to secure value for money have identified the following VFM significant risk:</p> <ul style="list-style-type: none">• Financial planning and sustainability – the Authority continues to face a challenging financial position.
Audit logistics	<p>Our interim visit will take place in March and our final visit will take place from July to November. Our key deliverables are this Audit Plan and our Audit Findings Report. Our audit approach is detailed in Appendix A.</p> <p>Our fee for the audit will be £27,110 (PY: £25,610) for the Authority, subject to the Authority meeting our requirements set out on page 13.</p>
Independence	<p>We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.</p>

2. Key matters impacting our audit

Factors

The wider economy and political uncertainty

Local Government funding continues to be stretched with increasing cost pressures and demand from residents.

The Authority continues to operate under significant financial pressures but has continued to manage its finances to deliver a balanced outturn position. Over a number of years the Authority has continued to use its reserves to achieve a balanced budget, rather than increase levies considerably. However it has acknowledged that this is not sustainable over the medium to long term due to the falling reserves balances. The Authority has planned to include a reserves contribution for 2019/20 of £1.4m and levy increase of 4.9% and further increases of 4.4% for 2020/21 and 3.3% for 2021/22, without reserves contributions are planned.

The government is consulting on its new waste strategy which has the potential to have a significant impact on the Authority's strategy and operations in the next few years.

Financial reporting and audit – raising the bar

The Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge, and to undertake more robust testing as detailed in Appendix 1.

Our work in 2018/19 has highlighted areas where local government financial reporting, in particular, property, plant and equipment and pensions, needs to be improved, with a corresponding increase in audit procedures. We have also identified an increase in the complexity of local government financial transactions which require greater audit scrutiny.

Covid-19 pandemic

The emergence of the Covid-19 pandemic is an unprecedented global situation of which the significant cannot be underestimated and the implications to individuals, organisations and communities remains highly uncertain. For our public sector audited bodies, we appreciate the significant responsibility and burden your staff have to ensure vital public services are provided. As far as we can.

Our response

We will consider your arrangements for managing and reporting your financial resources as part of our work in reaching our Value for Money conclusion.

We will consider whether your financial position leads to material uncertainty about the going concern of the Authority and will review related disclosures in the financial statements.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting. Our proposed work and fee, as set further in our Audit Plan, has been agreed with the Director of Finance and Investment and is subject to PSAA agreement.

As far as we can, our aim is to work with you in these unprecedented times, ensuring up to date communication and flexibility where possible in our audit procedures.

3. Group audit scope and risk assessment

In accordance with ISA (UK) 600, as group auditor we are required to obtain sufficient appropriate audit evidence regarding the financial information of the components and the consolidation process to express an opinion on whether the group financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

Component	Individually Significant?	Risks identified	Planned audit approach
Mersey Waste Holdings limited	Yes	Incomplete or incorrect consolidation	Full scope UK statutory audit performed by Grant Thornton UK LLP using component materiality
Bidston Methane	No	Incomplete or incorrect consolidation	Analytical review performed by Grant Thornton UK LLP.

4. Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions (rebutted)	Group and Authority	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p>	<p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Authority, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • there is little incentive to manipulate revenue recognition • opportunities to manipulate revenue recognition are very limited • the culture and ethical frameworks of local authorities, including MWDA, mean that all forms of fraud are seen as unacceptable
Management over-ride of controls	Group and Authority	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The Authority faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate the design effectiveness of management controls over journals • analyse the journals listing and determine the criteria for selecting high risk unusual journals • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions

Significant risks identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of land and buildings	Group and Authority	<p>The Authority revalues its land and buildings annually. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved (£362m) and the sensitivity of this estimate to changes in key assumptions.</p> <p>We therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement, and a key audit matter.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work. • evaluate the competence, capabilities and objectivity of the valuation expert. • write to the valuer to confirm the basis on which the valuation was carried out to ensure that the requirements of the Code are met • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding/engage our own valuer to assess the instructions to the Authority's valuer, the Authority's valuer's report and the assumptions that underpin the valuation. • test revaluations made during the year to see if they had been input correctly into the Authority's asset register. • evaluate the assumptions made by management for those assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value at year end.

Significant risks identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Impact of Covid-19 pandemic	Group and Authority	<p>The global outbreak of the Covid-19 virus pandemic has led to unprecedented uncertainty for all organisations, requiring urgent business continuity arrangements to be implemented. We expect current circumstances will have an impact on the production and audit of the financial statements for the year ended 31 March 2020, including and not limited to;</p> <ul style="list-style-type: none"> • Remote working arrangements and redeployment of staff to critical front line duties may impact on the quality and timing of the production of the financial statements, and the evidence we can obtain through physical observation • Volatility of financial and property markets will increase the uncertainty of assumptions applied by management to asset valuation and receivable recovery estimates, and the reliability of evidence we can obtain to corroborate management estimates • Financial uncertainty will require management to reconsider financial forecasts supporting their going concern assessment and whether material uncertainties for a period of at least 12 months from the anticipated date of approval of the audited financial statements have arisen; and • Disclosures within the financial statements will require significant revision to reflect the unprecedented situation and its impact on the preparation of the financial statements as at 31 March 2020 in accordance with IAS1, particularly in relation to material uncertainties. <p>We therefore identified the global outbreak of the Covid-19 virus as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Work with management to understand the implications the response to the Covid-19 pandemic has on the organisation's ability to prepare the financial statements and update financial forecasts and assess the implications on our audit approach • Liaise with other audit suppliers, regulators and government departments to co-ordinate practical cross sector responses to issues as and when they arise • Evaluate the adequacy of the disclosures in the financial statements in light of the Covid-19 pandemic. • Evaluate whether sufficient audit evidence using alternative approaches can be obtained for the purposes of our audit whilst working remotely • Evaluate whether sufficient audit evidence can be obtained to corroborate significant management estimates such as recovery of receivable balances • Evaluate management's assumptions that underpin the revised financial forecasts and the impact on management's going concern assessment • Discuss with management any potential implications for our audit report if we have been unable to obtain sufficient audit evidence

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report for the year ending 31 March 2020.

5. Other risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Compliance with Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 requirements	In the prior year accounts, the Authority did not update its accounting policies and disclosures for IFRS 9 and IFRS 15	We will: <ul style="list-style-type: none"> Evaluate the updated accounting policies to ensure they meet the requirements of the IFRS 9 and 15 Assess the completeness of the disclosures made by the Authority in its 2019/20 financial statements with reference to The Code and CIPFA/LASAAC Local Authority Leasing Briefings.
Finance Team's capacity and accounts process	<p>The Authority has a small finance team which in previous years has led to difficulties in responding to our audit queries due to their limited capacity. This coupled with an unwieldy accounts template has meant that it has taken a long time to amend the accounts resulting in a lengthier audit process.</p> <p>We understand that the Authority has updated its accounts template this year, which will hopefully help to speed up the process of amending the accounts for any audit misstatements or disclosure issues.</p>	We will: <ul style="list-style-type: none"> Evaluate the close down process and set clear expectations for the working papers to be prepared by the finance team to support the accounts. Review the revised accounts template

6. Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement and any other information published alongside your financial statements to check that they are consistent with the financial statements on which we give an opinion and consistent with our knowledge of the Authority
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with the guidance issued by CIPFA
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions
- We consider our other duties under the Local Audit and Accountability Act 2014 (the Act) and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2019/20 financial statements, consider and decide upon any objections received in relation to the 2019/20 financial statements
 - Issue of a report in the public interest or written recommendations to the Authority under section 24 of the Act, copied to the Secretary of State
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act or
 - Issuing an advisory notice under Section 29 of the Act.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to "obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the Authority's ability to continue as a going concern" (ISA (UK) 570). We will review management's assessment of the going concern assumption and material uncertainties, and evaluate the disclosures in the financial statements.

7. Materiality

The concept of materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

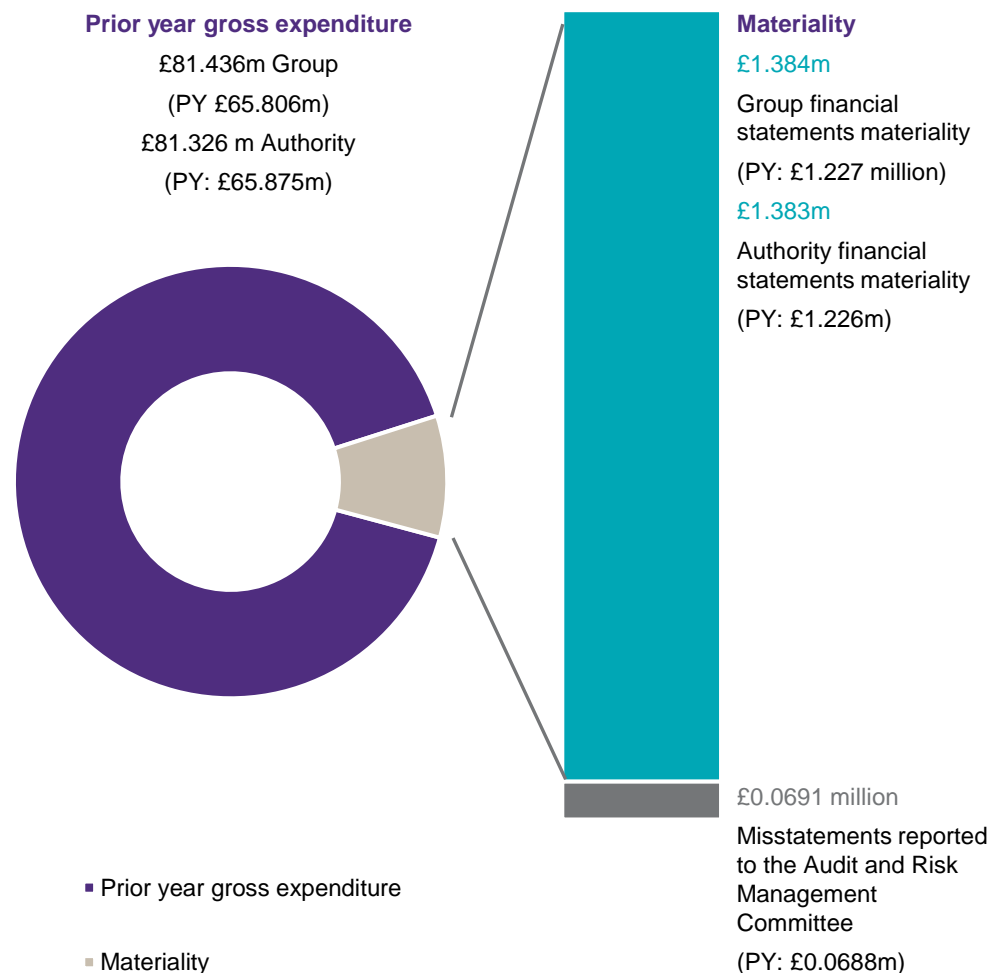

We have determined financial statement materiality based on a proportion of the gross expenditure of the Authority for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £1.384m (PY £1.227m) for the Group, £1.383m (PY £1.377m) for the Authority, which equates to 1.7% of your prior year gross expenditure for the year. We design our procedures to detect errors in specific accounts at a lower level of precision which we have determined to be 2% for individual's Senior Officer remuneration disclosed in the accounts.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to Those Charged with Governance

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Authority any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £0.0691m (PY £0.0688m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Authority to assist it in fulfilling its governance responsibilities.

8. Value for Money arrangements

Background to our VFM approach

The NAO issued its guidance for auditors on Value for Money work in November 2017. The guidance states that for Local Government bodies, auditors are required to give a conclusion on whether the Authority has proper arrangements in place to secure value for money.

The guidance identifies one single criterion for auditors to evaluate:

“In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people.”

This is supported by three sub-criteria, as set out below:

Significant VFM risks

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the Authority to deliver value for money.

Authority reserves and levy increases

The Authority continues to operate under significant financial pressures but has continued to manage its finances to deliver a balanced outturn position. Over a number of years, the Authority has continued to use its reserves to achieve a balanced budget, rather than increase levies considerably. However it has acknowledged that this is not sustainable over the medium to long term due to the falling reserves balances. The Authority has planned to include a reserves contribution for 2019/20 of £1.4m and levy increase of 4.9% and further increases of 4.4% for 2020/21 and 3.3% for 2021/22, without reserves contributions are planned.

We will continue to monitor the Authority's financial position, in particular the level of general reserves and proposals for levy increases over the medium term. We will also consider the impact of the Covid-19 pandemic on the Authority's financial plans. This work is part of the sustainable resource deployment sub-criteria

9. Audit logistics & team

Andrew Smith, Engagement Lead

Andrew leads our relationship with you and takes overall responsibility for the delivery of a high quality audit, meaning the highest professional standards and adding value to the Authority

Naomi Povey, Audit Manager

Naomi plans, manages and leads the delivery of the audit, is your key point of contact for your Finance team and is your first point of contact for discussing any issues.

Chris Blakemore, Audit Incharge

Chris's role is to assist in planning, managing and delivering the audit fieldwork, ensuring the audit is delivered effectively and efficiently and supervises and coordinates the on site audit team.

Client responsibilities

Where clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the narrative statement and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

10. Audit fees

Planned audit fees 2019/20

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing. Within the public sector, where the FRC has recently assumed responsibility for the inspection of local government audit, the regulator requires that all audits achieve a 2A (few improvements needed) rating.

Our work across the sector in 2018/19 has highlighted areas where local government financial reporting, in particular, property, plant and equipment and pensions, needs to be improved. We have also identified an increase in the complexity of local government financial transactions. Combined with the FRC requirement that 100% of audits achieve a 2A rating this means that additional audit work is required. We have set out below the expected impact on our audit fee. The table overleaf provides more details about the areas where we will be undertaking further testing.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting. Our proposed work and fee for 2019/20 at the planning stage, as set out below and with further analysis overleaf, has been agreed with the Director of Finance and is subject to PSAA agreement.

	Actual Fee 2017/18	Actual Fee 2018/19	Proposed fee 2019/20
MWDA audit fee (excluding VAT)	£29,363	£25,610	£27,110

Assumptions

In setting the above fees, we have assumed that the Authority will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with staff of appropriate skills, time and abilities to deliver an audit to the required professional standard.

Audit fee variations – Further analysis

Planned audit fees

The table below shows the planned variations to the original scale fee for 2019/20 based on our best estimate at the audit planning stage. Further issues identified during the course of the audit may incur additional fees. In agreement with PSAA (where applicable) we will be seeking approval to secure these additional fees for the remainder of the contract via a formal rebasing of your scale fee to reflect the increased level of audit work required to enable us to discharge our responsibilities. Should any further issues arise during the course of the audit that necessitate further audit work additional fees will be incurred, subject to PSAA approval.

Audit area	£	Rationale for fee variation
Scale fee	22,610	
Increased challenge and depth of work	500	The Financial Reporting Council (FRC) has highlighted that the quality of work by all audit firms needs to improve across local audit. This will require additional supervision and leadership, as well as additional challenge and scepticism in areas such as journals, estimates, financial resilience and information provided by the entity.
Property, Plant and Equipment	1,750	We have increased the volume and scope of our audit work to ensure an adequate level of audit security and challenge over the assumptions that underpin PPE valuations.
Pensions – valuation of net pension liabilities under International Auditing Standard (IAS) 19	1,750	We have increased the granularity, depth and scope of coverage, with increased levels of sampling, additional levels of challenge and explanation sought, and heightened levels of documentation and reporting.
New accounting standards/developments	500	The introduction of IFRS16 will require the Authority to disclose the expected impact of the change in accounting treatment in the 2019/20 financial statements in order with comply with IAS8 and the impact of Covid-19.
Revised scale fee (to be approved by PSAA)	27,110	

11. Independence & non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in December 2017 and PSAA's Terms of Appointment which set out supplementary guidance on ethical requirements for auditors of local public bodies.

Other services provided by Grant Thornton

For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority. The following other services were identified:

Service	£	Threats	Safeguards
Audit related:			
Audit of Mersey Waste Holding Limited	10,200	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £10,200 in comparison to the total fee for the audit of £27,110 and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.

Non-audit related:

None

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Authority's policy on the allotment of non-audit work to your auditors. All services have been approved by the Audit and Risk Management Committee. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees. The firm is committed to improving our audit quality – please see our transparency report - <https://www.granthornton.co.uk/globalassets/1.-member-firms/united-kingdom/pdf/annual-reports/interim-transparency-report-2019.pdf>

Appendix

A. Audit Quality – national context

Appendix A: Audit Quality – national context

What has the FRC said about Audit Quality?

The Financial Reporting Council (FRC) publishes an annual Quality Inspection of our firm, alongside our competitors. The Annual Quality Review (AQR) monitors the quality of UK Public Interest Entity audits to promote continuous improvement in audit quality.

All of the major audit firms are subject to an annual review process in which the FRC inspects a small sample of audits performed from each of the firms to see if they fully conform to required standards.

The most recent report, published in July 2019, shows that the results of commercial audits taken across all the firms have worsened this year. The FRC has identified the need for auditors to:

- improve the extent and rigour of challenge of management in areas of judgement
- improve the consistency of audit teams' application of professional scepticism
- strengthen the effectiveness of the audit of revenue
- improve the audit of going concern
- improve the audit of the completeness and evaluation of prior year adjustments.

The FRC has also set all firms the target of achieving a grading of '2a' (limited improvements required) or better on all FTSE 350 audits. We have set ourselves the same target for public sector audits from 2019/20.

Other sector wide reviews

Alongside the FRC, other key stakeholders including the Department for Business, energy and Industrial Strategy (BEIS) have expressed concern about the quality of audit work and the need for improvement. A number of key reviews into the profession have been undertaken or are in progress. These include the review by Sir John Kingman of the Financial Reporting Council (Dec 2018), the review by the Competition and Markets authority of competition within the audit market, the ongoing review by Sir Donald Brydon of external audit, and specifically for public services, the Review by Sir Tony Redmond of local authority financial reporting and external audit. As a firm, we are contributing to all these reviews and keen to be at the forefront of developments and improvements in public audit.

What are we doing to address FRC findings?

In response to the FRC's findings, the firm is responding vigorously and with purpose. As part of our Audit Investment Programme (AIP), we are establishing a new Quality Board, commissioning an independent review of our audit function, and strengthening our senior leadership at the highest levels of the firm, for example through the appointment of Fiona Baldwin as Head of Audit. We are confident these investments will make a real difference.

We have also undertaken a root cause analysis and put in place processes to address the issues raised by the FRC. We have already implemented new training material that will reinforce the need for our engagement teams to challenge management and demonstrate how they have applied professional scepticism as part of the audit. Further guidance on auditing areas such as revenue has also been disseminated to all audit teams and we will continue to evolve our training and review processes on an ongoing basis.

What will be different in this audit?

We will continue working collaboratively with you to deliver the audit to the agreed timetable whilst improving our audit quality. In achieving this you may see, for example, an increased expectation for management to develop properly articulated papers for any new accounting standard, or unusual or complex transactions. In addition, you should expect engagement teams to exercise even greater challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates, going concern, related parties and similar areas. As a result you may find the audit process even more challenging than previous audits. These changes will give the audit committee – which has overall responsibility for governance - and senior management greater confidence that we have delivered a high quality audit and that the financial statements are not materially misstated. Even greater challenge of management will also enable us to provide greater insights into the quality of your finance function and internal control environment and provide those charged with governance confidence that a material misstatement due to fraud will have been detected.

We will still plan for a smooth audit and ensure this is completed to the timetable agreed. However, there may be instances where we may require additional time for both the audit work to be completed to the standard required and to ensure management have appropriate time to consider any matters raised. This may require us to agree with you a delay in signing the announcement and financial statements. To minimise this risk, we will keep you informed of progress and risks to the timetable as the audit progresses.

We are absolutely committed to delivering audit of the highest quality and we should be happy to provide further detail about our improvement plans should you require it.
