1. INTRODUCTION

(i) Scope

These rules relate to the supply of services, the purchase, leasing and hiring of goods and the execution of works.

(ii) Interpretation

Unless the context otherwise requires, in these Contract Procedural Rules, the following terms have the following meaning:-

“Clerk” means the Clerk to the Authority or his/her duly authorised representative.

“Contract” means any agreement for:-

- (a) the supply of services to or for the Authority including the use of consultants but excluding the use of Counsel instructed by the Monitoring Officer.
- (b) The purchase, leasing or hiring of goods by the Authority PROVIDING THAT arrangements involving hire purchase, finance leases or operating leases shall only be entered into in accordance with arrangements approved by the Treasurer; and
- (c) The execution of works for the Authority.

“Chief Executive” means the Chief Executive of the Authority or his/her duly authorised representative.

“Monitoring Officer” means the officer appointed in accordance with section 5 of the Local Government and Housing Act 1989 and responsible for the provision of legal services to the Authority or his/her duly authorised representative.

“Treasurer” means the Officer the officer appointed under section 73 of the Local Government Act 1985, responsible for the proper administration of the financial affairs of the Authority or his/her duly authorised representative.

“Consultant” means an external service provider appointed to advise and act for the Authority.

(iii) Grouping of Contracts

A contract may include a series of transactions for the purchase of goods and services or execution of works which are of the same type so that the estimated value of the sum total of this series of transactions should be taken as estimated contract price for the purpose of these Rules. Where relevant, the total annual value of goods and services or work executed of the same nature and required within the contract period shall be taken as the estimated contract price.

Officers shall have regard to the most appropriate packaging of contracts to achieve the greatest value for money and the most effective arrangements. A contract must not be divided into smaller contracts with the aim of avoiding the application of these Contract Procedure Rules in full and the application of UK public contracts regulations or EU public procurement directives.

(iv) Adequate Budget Provision

Contracts shall not be entered into unless there is adequate provision in the appropriate budget, or approval has been obtained to use balances.
