

Service Delivery Plan 2024-25

For each of the separate Corporate Aims there are a number of Key Projects which are designed to deliver the objectives set out under the aims. These key projects provide headlines for a more detailed work programme of ‘sub’ projects that taken together will deliver the objectives of the Key Projects and Corporate Aims. These key and sub projects are also supported by a comprehensive range of tasks that are important in their own right but which are seen more as ‘business as usual’ than separate projects; these ‘doing the day job’ tasks are as important as the project based tasks for the delivery of the Authority’s objectives and will be captured in team and individual staff goals and objectives.
