

APPENDIX 1

OPTIONS SHORT LIST AGREED AT AUTHORITY MEETING APRIL 2010

Table 1: Short List of Options

Number (not ranked)	Option
1	Reduce the climate change/carbon impacts of waste management
2	Maximise prevention of waste
3	Maximise landfill diversion/ recovery of residual waste
4	Maximise sustainable economic activity associated with waste management
5	Reduce the ecological footprint of waste management activities
6	Promote behavioural/cultural change that delivers the strategy objectives
7	Promote the use of renewable energy
8	Achieve high recycling = 50-55%
9	Promote resource efficiency
10	Provide sufficient capacity for waste management activity

Table 2: Mechanisms for Delivery

Waste Prevention
Enforcement of policies such as HWRC Permit scheme, no side waste
Restricting residual waste capacity and collection frequency
Lobbying government and working with retailers
Waste prevention activities in schools, commercial waste generators and in house
Incentives for waste prevention
Promotion of activities such as junk mail, real nappies, home composting – overall promotion of behavioural change
Focus on food waste prevention (e.g. Love Food Hate Waste campaign)
Sign up to Zero Waste Places Standard

Re-Use
Charging for bulky waste collections
Support for reuse/refurbishment activity through separate collections, sorting of bulky waste collections, encouraging HWRC based schemes, involvement of third sector
Support the third sector in bulky waste collections and bulky waste deconstruction schemes
Re-use campaigning and promotion e.g. Swap Days, Freecycle/Freegle
In house activity – removal of single use cups, use of milk bottles, rechargeable battery units
Lobbying government, working with local retailers and commercial producers.
Recycling and Composting
Separate food waste collections (household and trade)
Incentives to recycle e.g. reduced container capacity for residual waste, Alternate Weekly Collections, increased recycling capacity, high frequency of recycling collection
Recyclable only HWRCs/Trade only HWRCs
Full coverage of collection schemes and maximised bring bank provision
In house recycling schemes
Expand range of dry recyclables collected
Cardboard, colour separated glass, aerosols, foil, plastic film, tetrapack, WEEE, batteries
Provision of recycling services for all waste streams, trade, litter recycling (on street bins), street cleansing.

Table 3: Areas for Further Exploration

Review of the Levy mechanism and its role in incentivising performance and achieving targets.
The range of options for future Governance structures including the creation of a Joint Waste Authority (various combinations)
Joint contract procurement and related opportunities for sharing of facilities, collection round optimisation and efficiency savings
Common service provision e.g. all Councils on Alternate Weekly Collections, co-mingled collection of recyclates, food waste collections.
Common policies between Councils on waste collection services and developing a common communication strategy and resource sharing.
